

ALLIANCE CONTRACT

Option X29 Nature and Climate

Identified and defined terms	X29	(1) The Nature and Climate Requirements are the requirements relating to nature and climate stated in the Scope.
	X29.1	(2) The Issued Nature and Climate Plan is the <i>nature and climate plan</i> or is the latest nature and climate plan issued by the Alliance Manager. The latest nature and climate plan issued by the Alliance Manager supersedes previous Nature and Climate Plans.
		(3) The Nature and Climate Partners are the people or organisations who contribute to the achievement of the Nature and Climate Requirements and are identified in the Nature and Climate Requirements.
Collaboration	X29.2	The Alliance collaborates with other Nature and Climate Partners as stated in the Nature and Climate Requirements.
Early warning	X29.3	A member of the Alliance and the Alliance Manager give an early warning by notifying all other members of the Alliance as soon as either becomes aware of any matter which could adversely affect the achievement of the Nature and Climate Requirements.
Nature and climate plan	X29.4	(1) If a nature and climate plan is not identified in the Contract Data, the Alliance Manager prepares a first nature and climate plan and issues it to the Alliance within the period stated in the Contract Data.
		(2) The Nature and Climate Plan shows how the Alliance plans to meet the Nature and Climate Requirements.
		(3) The Alliance Manager or a member of the Alliance may propose a change to the Nature and Climate Plan.
		(4) The Alliance Manager revises the nature and climate plan and issues it to the Alliance when the Alliance Manager or a member of the Alliance requests that the Nature and Climate Plan is changed and the Alliance Manager, in consultation with the Alliance decides, to change it.
Disclosure	X29.5	The members of the Alliance may use, disclose and publicise information relating to nature and climate as stated in and for the purposes stated in the Nature and Climate Requirements.
Proposals	X29.6	The Alliance Manager or a member of the Alliance may propose to the Alliance Board that the Scope is changed in order to reduce the impact of the creation, operation, maintenance or demolition of the <i>works</i> on nature and climate.

CONTRACT DATA – PART ONE

X29 Nature and climate

If Option X29 is used

If a *nature and climate plan* is to be identified in the Contract Data

The *nature and climate plan* identified in the Contract Data is
